Faculty/Staff Achievements

Tamara Bogdanović, professor in the School of Physics, is among the latest recipients of an RCSA Singular Exceptional Endeavors of Discovery Award. The competitive award offers Cottrell Scholars the opportunity to start high-risk, high-reward new research or educational activities.

Deepakraj M. Divan, professor, John E. Pippin Chair, and GRA Eminent Scholar in the School of Electrical and Computer Engineering, received the 2023 Nari Hingorani Custom Power Award from the IEEE Power & Energy Society. The award is granted to individuals who have made outstanding contributions to the progress of Custom Power technologies and their applications.

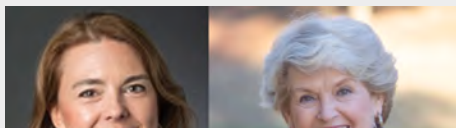

Ryan Sherman, assistant professor in the School of Civil and Environmental Engineering, has been awarded the American Institute of Steel Construction's 2023 Milek Fellowship in recognition of his innovative research on metallic additive manufacturing. Sherman's research explores the viability of 3D printing as an economically viable option for large-scale structural steel projects.

Featured Event

Georgia Tech Faculty Women's Club Open House

During its annual open house, the GTFWC will welcome two special guests: Beth Cabrera, who will offer a brief Institute update, and Carolvn Curry, who will speak about her new
